# Swytch launches its own ebike for less than £1,000 alongside new Max+ conversion kits

The maximum speed of all our Swytch Kits is 32 km/h (20 mph). However, the kits are pre-configured according to the regulations of the delivery region. For customers in the United Kingdom and Europe, the Swytch Kits are set to a maximum speed of 24 km/h (15 mph) to comply with local laws and regulations.
